## Features:

- **APP remote control:** Using the free app(ENERJSMART) to control wifi smart plug anytime, anywhere. If you're going away on vacation, you can control any appliance plugged into a smart plug even while you're miles away.
- **Voice control:** Compatible with Alexa and Google home, control your home appliance with the smart plug by giving voice command. The smart plug works with any Wifi router without a separator hub or paid subscription service.  
Just say "Alexa" / "Hey siri" / "Hey google" to control socket
- **Schedule & Away Mode:** Schedule the smart plug to automatically power electronics on and off; And turns your devices on and off at different times to give the appearance that someone is home
- **Energy monitoring:** Analyse a device's real time and historical power consumption. You also can check the current, power and voltage in the Statistics page.
- **No Hub Required:** Analyse a device's real time and historical power consumption. You also can check the current, power and voltage in the Statistics page.
