T238

Ean Code on box:
7061256822542

Packing

Inner Qty
1pc pack

Features

- Our product is built with high quality 400 PCS 2385 SMD chips. The temper glass places a solid high transmittance around the room. Our LED Flood light is equivalent to 1000W Halogen Bulb. The Floodlight also saves 80% of your energy as compared to traditional Halogen lamps. Lighten up your atmosphere with our EXTREMELY BRIGHT LED Floodlight!
- **MODERN DESIGN:** The multiple groove shaped design on the back helps to increase air contact around the area. It slows down heat dissipation without developing any security risks. The wire length is 60cms and working voltage (85-265V); this helps you to save wire costs. It also has a 180-degree beam angle
- **USAGE:** Our Floodlights can be used on roads, gardens, bridges, billboards, streets, parks, trees, hotels, residential decoration and much more!
