- ▶ Durable aluminium housing
- ▶ Acts as a heat sink, aids cooling
- ▶ Reduces glare and softens light output
- ▶ 300mm Diameter bend curve
- ▶ Clip In Diffuser
- ▶ Easy fit end caps and diffuser
- ▶ Sturdy housing protects strip

### Product Description:

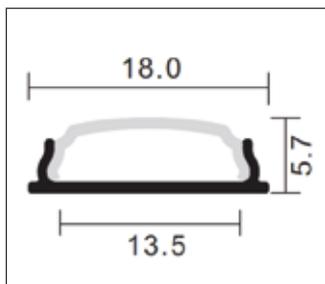

This Bendable Flat LED profile is a great way to give your LED strip a professional finish.

As well as providing a sturdy housing this unique LED profile can also be bent up and down so can follow round curves. Suitable applications for this profile would be places where you are looking for more of a bespoke profile for example Curved walls and custom applications. This profile is only suitable for our IP20 rated strips, see the data sheets for maximum bending range. All of our profiles come supplied with all the accessories as required such as end caps and fixing clips.

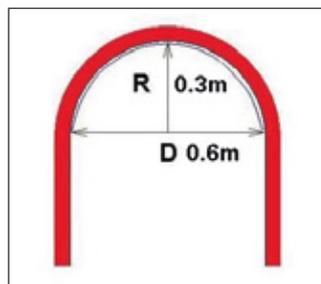

Mounting your LED lighting strips inside this profile is a quick and easy process. Simply peel off the sticky tape from the LED strip light and carefully place it within the high quality aluminium LED profile. All of our profiles come supplied with all the accessories required, these include:

- ▶ LED Strip diffuser & end caps
- ▶ Mounting clips
- ▶ Mounting brackets
