FAQs:

1. How do I adjust the colour temperature of the LED lighting?

You can switch between 3000K (warm white), 4000K (neutral white), and 6000K (cool white) using the touch control panel on the mirror.

2. Does the mirror need to be hardwired?

No, it comes with a UK BS fused plug for simple plug-and-play installation.

3. Can the anti-fog feature be used continuously?

The anti-fog feature activates when the mirror is turned on and prevents condensation from building up during use.

4. Is the moon design lighting adjustable separately?

The moon design lighting works in sync with the dimmable and CCT-adjustable LED system.

### 5. Is this mirror suitable for small bathrooms?

Yes, with a 70cm diameter, it is versatile and fits well in both compact and spacious bathrooms.
