Product Description:

Upgrade your bathroom with this **LED Mirror Cabinet**, blending sleek aesthetics and innovative functionality. Featuring high-density LED strips, the cabinet ensures flawless illumination for a crystal-clear reflection. Equipped with a PIR sensor, the cabinet lighting activates automatically when you're nearby, keeping the mirror spotless. With ample storage and durable construction, this cabinet is a perfect addition to any bathroom, providing a blend of elegance and utility.

Features:

▶ **Superior Lighting with No Shadows:** High-density LED strips provide flicker-free, evenly distributed lighting, eliminating shadows and dark spots for a flawless reflection. Perfect for makeup and grooming.

▶ **PIR Sensor Technology:** Proximity-based activation ensures the light turns on automatically as you approach, keeping your hands dry and mirror clean, free from water stains.

▶ **Ample Storage Space:** Three spacious internal shelves offer plenty of room for storing your bathroom essentials, ensuring everything is organized behind the mirrored doors.

▶ **Elegant & Durable Design:** Constructed with high-quality MDF and a sleek aluminum frame, the cabinet is both stylish and long-lasting. Stainless steel hinges are corrosion-resistant and operate silently.

▶ **Versatile & Space-Saving:** Wall-mounted design maximizes vertical space, making it ideal for compact bathrooms or modern homes. Can also be used as a high-definition makeup mirror in bedrooms or living spaces.

Technical Specifications:

SKU	SHA5402
Materials	Aluminium + Glass
Voltage	220~240V
Cabinet Colour	Black
Product Dimensions	750x120x680mm
Plug	UK BS Fused Plug
LEDs	360 LEDs
Colour	6000K
Sensor Distance	3 Meter

Box Contents:

- 1 x LED Mirror Cabinet (75x68 cm)
- 1 x Installation Manual
- 1 x Installation Kit (Screws and Anchors)

FAQs:

1. How does the PIR sensor work?

The PIR sensor detects motion within a 3 meters range, automatically turning on the light when you approach the cabinet.

2. Is the light colour adjustable?

No, this model comes with a fixed color temperature of 6000K, providing bright and natural lighting.

### 3. Can this cabinet be hardwired?

While it includes a UK BS fused plug for easy installation, it can be hardwired by a professional if desired.

4. What materials are used in the construction?

The cabinet is made of durable aluminum and glass with high-quality MDF for the interior, ensuring long-lasting performance.

5. Is it suitable for compact bathrooms?

Yes, its wall-mounted design makes it an excellent space-saving solution for both small and large bathrooms.
