Features

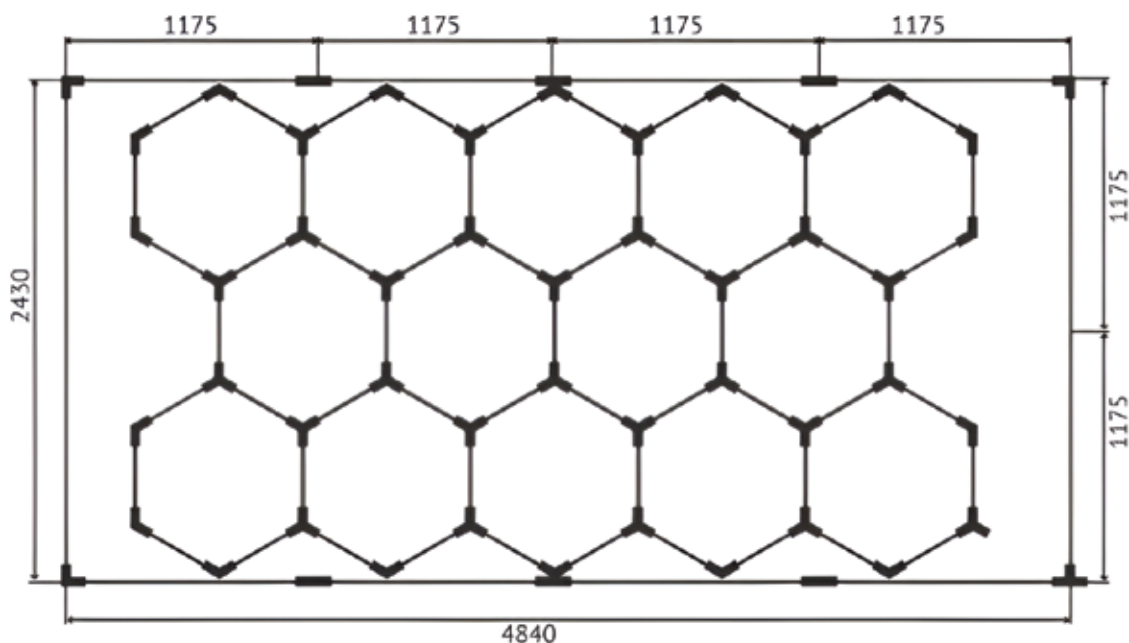

- **Hexagonal Design:** 14 hexagon-shaped lights arranged in a frame, providing a modern and unique aesthetic suitable for car showrooms and commercial spaces.
- **CCT Switchable:** Users can switch between 3000K, 4000K, and 6000K color temperatures using the on-off FOB switch, allowing for different lighting atmospheres.
- **High Brightness:** 600W power output ensures high luminosity, ideal for illuminating large areas or showcasing vehicles.
- **Commercial Grade:** Designed for commercial use, ensuring durability and reliability in a professional setting.
- **Energy Efficient:** LED technology provides energy savings compared to traditional lighting solutions, while maintaining high brightness.
- **Long Lifespan:** Typically, LED lights have a long lifespan, reducing maintenance and replacement costs over time.
- **Versatile Installation Options:** The lights can be surface-mounted or suspended from the ceiling, offering flexibility in installation. Suspended installation requires Hanging Kits.
